PROFESSIONAL SUMMARY

Experienced Java developer with hands-on experience in software development, automation, AI-powered applications, web development, and database management. Skilled in developing scalable applications using Java, Spring Boot, and modern web technologies. Passionate about building automation solutions, integrating APIs, and solving business problems through technology.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript
Frontend: HTML, CSS, JavaScript
Backend: FastAPI, Spring Boot
Databases: SQL, SQLite
Tools Platforms: Git, GitHub
Concepts: REST API Development, Automation, Problem Solving, Database Design, Software Development Lifecycle

PROJECTS

RecruitFlow AI
Technologies: Python, FastAPI, SQLite, Groq AI, Git
• Developed an AI-powered recruitment automation platform that automates recruiter outreach, resume optimization, and email generation.
• Built backend services using Python and FastAPI.
• Integrated AI-based resume optimization using Groq LLM.
• Automated personalized email generation based on job descriptions.
• Designed recruiter submission tracking system.

Music Website
Technologies: HTML, CSS, JavaScript
• Designed and developed a responsive music streaming website with playlist management and interactive controls.
• Developed responsive user interface.
• Implemented play, pause, next, and previous controls.
• Built playlist management functionality.
• Designed mobile-friendly layouts.

Assistify Telegram Bot
Technologies: Python, Telegram Bot API
• Built a Telegram automation bot capable of handling commands and automated responses.
• Developed bot using Python.
• Integrated Telegram Bot APIs.
• Implemented automated messaging workflows.
• Designed command-based interactions.

EDUCATION

Bachelor of Science (BSc) in Computer Science

CERTIFICATIONS

•

ACHIEVEMENTS

•

ATS KEYWORDS MATCHED

Java, Spring Boot, Microservices, SQL, REST API, Git
